PERFORMANCE MATERIALS

Our unique clay recipe is essential in creating a strong and durable product for the hospitality industry. Our raw materials are selected to deliver the optimum balance of strength and whiteness.

ENGINEERED SHAPE & FORM

Every piece of Churchill's ceramic is designed with performance in mind. Through expert shape engineering, we reinforce strength and durability while continual investment in technology guarantees functionality and consistent quality.

VITRIFICATION & FIRING

100% of Churchill's ceramics are vitrified which is essential to the hospitality industry. Through the process of vitrification, the particle structure of our ceramic body becomes strong, dense and watertight.

GLAZING

Our glaze is hard wearing and designed specifically for the hospitality environment. The durability is a combination of the glaze recipe, the firing temperature and substrate. Our Eco Glaze is specially formulated to be re-usable, minimising our impact on the environment.

QUALITY & CONFORMANCE

Churchill ceramics are continuously tested and quality checked, from the stage of raw materials, throughout the manufacturing process to the final fired piece.
